DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1, 3-7, 9, 11-14, 17, 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Inoue et al., Pat. 6,311,767.

Inoue discloses a system for cooling a processor 78, the system comprising: a heat sink assembly 10 having a fan 14, walls 28A, 28B and 28C coupled to a bottom surface 26 of the heat sink; the walls and bottom surface define an air channel, and the heat sink assembly is configured to be thermally coupled to the processor 78; and a heat sink lid 24 coupled to the heat sink assembly; the heat sink lid is configured to leave a portion of the air channel uncovered (see Fig. 1) which may reduce air flow noise since edge of the lid does not cover portion of the air channel; and the heat sink assembly is further configured such that air flows directly from the fan along the bottom surface of the heat sink assembly.

Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Application/Control Number: 10/767,462 Page 3

Art Unit: 2835

4. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Inoue et al. in view of Bartley et al.

Inoue discloses the claimed invention except the thermal adhesive coupling the heat sink and the processor. Bartley discloses the heat sink assembly coupled to the processor by thermal adhesive. It would have been obvious at the time the invention was made to a person having ordinary skill in the art to use thermal adhesive as disclosed by Bartley for the device disclosed by Inoue for better heat transfer.

5. Claims 8 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Inoue et al.

Inoue discloses the claimed invention except the graphics processing unit and the application-specific integrated circuit. It would have been obvious at the time the invention was made to a person having ordinary skill in the art to use the cooling system as disclosed by Chung for the graphics processing unit and the application-specific integrated circuit since it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Application/Control Number: 10/767,462 Page 4

Art Unit: 2835

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Boris L. Chervinsky whose telephone number is 571-272-2039. The examiner can normally be reached on 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynn D. Feild can be reached on 571-272-2800 ext. 35. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
